Forecast for Tuesday 13 Jun 2023

Weather: A largely dry, fine and very warm day with any early cloud lifting above the hilltops then followed by plenty of strong sunshine. Very low risk of an isolated thunderstorm developing during the afternoon, but much less likely than previous days.

Chance of cloud-free hill tops above 600m: Generally greater than 95%.

Low cloud and visibility: Good to very good visibility, with uninterrupted panoramic views. Mediocre to temporarily poor in any isolated heavy showers..

Freezing Level*	2800m	2700m	2700m	2800m	2900m	2900m	2800m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

With very high UV levels it is important to be prepared by wearing and taking plenty of protective wear. With further warm weather and high humidity levels, plenty of water will be required as lengthy exposure to strong sunshine and high temperatures can cause exhaustion and dehydration.

Recent rainfall: measured at Neuadd: altitude 353m
